Eureka Health Spa [http://www.eureka-naturist-club.co.uk/](http://www.eureka-naturist-club.co.uk/) - a nudist camp in Kent, which seems like one of the more friendly nudist camps, so hopefully, I can ask them for advice and such.

A short documentary about an artist who is a nudist, who talks about the freedom of his life and how he likes everything to be honest and open in his life, and his struggles with a society that like to wear clothes which can hide things away.

The Artist Janny Saville

I really enjoy this artists work, it pushes how we view bodies in a whole new way, it is deeply personal. The bodies are often presented as painted, bloated and warped. Branded (1992) is a collection I think really influences me, all oil paintings of obese women, with breasts often huge and out of proportion with the rest of the bodies.
